Badger Press

To farmers, sheep and family

Contents

List of figures	vii
List of tables	ix
List of boxes	xi
List of acronyms	xii
Acknowledgements	xv
Chapter 1 – The Upland Farming System	1
What this book is about – Structure of upland agriculture – the Upland farming system – outputs on upland farms – livestock and fodder – rare breeds – operating the farming system – hefts – stratification – summary	
Chapter 2 – Defining the Extent of Uplands	30
Where are the uplands? – physical parameters – topography and climate – ecological parameters – ITE classification – CS2000 – Natural Areas Initiative – Legislative parameters – Hill Farming Act 1946 – LFA Directive – Moorland Line – National Parks – Cultural parameters – Countryside Character Areas – Natural Heritage Zones – Summary – Integrated Catchment Management	
Chapter 3 – An Evolving Upland Farming Landscape	62
Introduction – the First People – transhumance - climatic optimum – arrival of cultivation – expansion of moorland – the field arrives – hay meadows – monasticism – the Black Death – regional specialisation – hafod & hendre – shieling grounds – agricultural revolution – parliamentary enclosure – highland clearances – Agricultural Depression – emergence of the hill farming problem – summary	

Chapter 4 – The Physical Environment	96
Environmental determinism – physical margins of cultivation – role of climate – orographic effects -bracken – grazing season – role of geology – role of soils – agricultural potential of upland soils – poaching –poor drainage – infertility – overgrazing –erosion – summary	
Chapter 5 – A Landscape of High Nature Value	129
Introduction – broad habitat types – montane – montane heath – montane scrub – woodlands – Birchwoods – oakwoods – ashwoods – native pine forest – plantation – dwarf shrub heath – burning – grazing pressure – grasslands – bogs and mires – upland moorland mosaics – stocking densities – inland rocks – summary	
Chapter 6 – The Economics of Upland Agriculture	179
Introduction – absolute and comparative advantage – farm incomes – economic man – parametric shocks – economic margins of cultivation – marginality – factors of production – poor land quality – declining labour – capital – responses to contracting profit margins – the marketing mix – on and off farm diversification – organic farming – short food supply chains – PDOs and PGIs – OGAs – summary	
Chapter 7 – The Social Dimension	213
Introduction – local knowledge systems – human capital on upland farms – the farmer – the farm family – succession – beyond the farm gate – tradition – public goods – capital and cultural landscapes – social capital in hill farming – LEADER – social resilience - summary	
Chapter 8 – Politics and Upland Agriculture	247
Introduction – governments and political intervention – Hill Farming Act 1946 – 1951 Livestock Rearing Act – Common Agricultural Policy and Article 39 – Less Favoured Areas Directive – HLCA – SAPs and BAPs – Agri-environment schemes – 1992 reforms – Agenda 2000 – Rural Development Regulation – Mid Term Review – HFA – SPS – Environmental Stewardship Scheme - summary	
Chapter 9 – A Future for Upland Agriculture	288
Introduction – the EARFD – LEADER approach – replacing the HFA – new opportunities – multifunctionality – ecosystem services – constraints – lack of non-market goods valuation – lack of human capital – lack of financial capital – lack of knowledge and skills – poor public perception – evolving threats – redefining the LFA – EU enlargement – peak oil – climate change – food security – ecological and social resilience – summary

Index	353

List of figures

1.1	Uplands of the British Isles	1
1.2	Controls on Upland Agricultural Land Use Patterns	2
1.3	The Farm as a System	4
1.4	Agricultural Land Use in the United Kingdom 2006	6
1.5	Less Favoured Areas in the United Kingdom 2007	6
1.6	A Generalised view of an Upland Farm	7
1.7	Land Ownership above the Fell Wall in England and Wales 2009	8
1.8	Enterprise Mix on English Upland Farms 2009	11
1.9	Examples of Upland Sheep Breeds in England and Wales	11
1.10	Aspects of Ruminant Behaviour	12
1.11	Cutting and Grazing regimes on Pasture and Hay Meadows	18
1.12	A Typical Yorkshire Dales Field Barn	19
1.13	Example of a Heft on common land on the North Pennines	23
1.14	Stratification in the UK Sheep Industry	24
2.1	The Exe-Tees Line	33
2.2	Global Bioclimatic Zones	37
2.3	Changing Vegetation with Altitude	37
2.4	Ecological Zones in Northern Hemisphere Mountains	37
2.5	Mapping the Uplands: ITE, Natural England and CS2000	42
2.6	Less Favoured Areas in North West England	45
2.7	Less Favoured Areas in the European Union	46
2.8	Bodmin Moor LFA and the Moorland Line	49
2.9	National Park Boundaries and Topographical Contours	50
2.10	Swanwick's Interpretation of Landscape	53
2.11	Upland Countryside Character Areas of England	54
2.12	A Comparison of Countryside Character Areas and Natural Areas Initiative	54
2.13	Natural Heritage Zones in Scotland	55
2.14	The River Catchment	61
2.15	Integrated Catchment Management	61
3.1	Climatic Climax in the British Isles 8500bp	64
3.2	Possible Tree line in Scotland 5000bp	65
3.3	Waterlogging and Moorland Evolution	70
3.4	The Neolithic Upland Landscape	70
3.5	Dumayne-Peaty's (1999) sampling sites for Northern England and Southern Scotland	72
3.6	Bronze Age Field Structures	74
3.7	Agricultural field patterns on a Medieval Welsh upland farm	79
3.8	Remnants of a Shieling System on the Whin Sill, Northumberland	80
3.9	Medieval Monastic Foundations in the British Uplands	82
3.10	Monastic Wool Production in Britain 1321	83
3.11	Parliamentary Enclosure in Britain 1730 to 1860	87
3.12	Enclosure in Northern Westmorland 1770 to 1890	89
3.13	Changing Structure of British Agriculture 1700 to 2010	90

4.1	Environmental Gradients	96
4.2	Margins of Cultivation	97
4.3	Air masses Affecting UK Climate	98
4.4	The Orographic Effect of Uplands	98
4.5	Microscale temperature variations on an upland slope	99
4.6	Distribution of Growing Season in Britain	100
4.7	Generalised Solid Geology of the British Isles	101
4.8	Robust and Sensitive Landscapes	105
4.9	Examples of Upland Soil Profiles	110
4.10	Generalised Soil map of Britain	116
4.11	Physical and chemical properties of soils	117
4.12	Soil Texture Triangle	118
4.13	Nutrient Availability with Changing Soil pH	120
4.14	Drainage options	123
5.1	The Ecological landscape of Upland Farms	130
5.2	Broad Habitat Types in Britain 2000	133
5.3	Broad Habitat Types by Environmental Zone in Britain 2000	134
5.4	Zonation of Woodland types in Uplands	146
5.5	Extent of Native Pinewoods in Scotland	146
5.6	Distribution of Sub Alpine Heaths in Europe	150
5.7	Life Cycle of Ericoid Species	152
5.8	Replacement of Heather Moorland Communities	154
5.9	A Comparison between Ecological and Agricultural Terms for Grassland	157
5.10	Hay and Silage Production in England 1890 to 2005	161
5.11	Water Fluxes in different Mire Types	165
5.12	Replacement of Wet Heath Moorland Communities	169
5.13	Limestone Pavements and related landforms	174
6.1	Pred's Behaviourial Matrix	185
6.2	Agricultural Land Classification for England & Wales	189
6.3	Farm Tenancy Arrangements in English Uplands	191
6.4	LFA and Non LFA Farm Holding Sizes	193
6.5	Vertical Integration into Farms	196
6.6	Pluriactivity on Upland Farms	202
6.7	The Financial Contribution of Diversification to English Upland Farms 2009	204
6.8	Comparing Food Supply Chains	209
7.1	Declining Rural Populations	214
7.2	The Upland Farming Local Knowledge System	215
7.3	The Decision Making Process	216
7.4	Tri-Component View of Attitudes	217
7.5	Diffusion of Innovation	218
7.6	Age Profile of Farmers in English Uplands 2009	220
7.7	Changing Education Levels of English Farmers between 1990 and 2005	221
7.8	Farmers' Values in the Cumbrian Uplands 2004	224
7.9	Farm Succession in the Cumbria Uplands 2004	227
7.10	Future Issues for Upland Farmers in England	234
7.11	Social Capital: Local to Local Connections	236
7.12	Arnstein's Ladder of Citizen Participation	237
7.13	Conceptualising the changing facets of social capital with upland farming groups	240
8.1	Livestock Rearing Grant Expenditure 1951 and 1956	251
8.2	UK Agricultural Grants and Subsidies 1945 to 1972	253
8.3	Net Farm Incomes on Upland Farms 1964 to 1971	253
8.4	Sheep and Beef premiums until 1984	256
8.5	SWOT Analysis for England's RDP	270
8.6	GAECs and other Agri-Environmental schemes in England 2005	278
8.7	ELS Options Adopted by at least 30% of Farmers 2006	286
9.1	The Axes Approach of the EAFRD 2005	292
9.2	Income sources and profitability of livestock farms	299
9.3	Wilson's Concept of Multifunctionality	300
9.4	Sustainable Livelihoods Framework	309
9.5	Identifying Upland Farm Assets	321

List of tables

1.1	The Upland Farming Year	26
2.1	Classification of Mountains adopted by UNEP-WCMC	34
2.2	Example Areas of Mountains classified by the NORDREGIO project	34
2.3	Definition of Mountain Areas in Europe	35
2.4	Countryside Commission's Definition of Uplands 1978	36
2.5	ITE Upland Land Classes	39
2.6	Comparison of the Four Main Groupings under the ITE Land Classification	41
2.7	Criteria Employed to Define Less Favoured Areas in the EU 1975	44
2.8	Percentage of UAA classified as LFA in Various EU-27 States in 2005	47
2.9	University of Reading Definition of LFAs in the UK	47
2.10	Massifs identified by NORDREGIO in the UK	52
2.11	Objective 1 of the Cairngorms Massif Natural Heritage Zone	57
2.12	Comparing English definitions of Uplands	58
3.1	Maximum Treelines on Various Upland Massifs during the Holocene	65
3.2	Vegetation Changes in North Eastern England & the Scottish Borders	73
3.3	Historical Upland Changes in Medieval Britain	77
3.4	The Recommendations of the Two Hill Farming Committees 1944	94
4.1	Growing and Grazing Season Decrease with Altitude	100
4.2	Geological Evolution of Upland Massifs in Britain	102
4.3	Typical Upland Soils in Britain	108
4.4	Ecological Definition of Peat soils	115
4.5	Mire Typology	115
4.6	The Effect of Subsoiling on the Infiltration Rates of Various Soil Textures	122
4.7	Root Penetration into the Soil	122
4.8	Seasonal Variations in Grazing on Various Upland Plants	125
4.8	Potential Production of Various Upland Soil Types	125
4.9	Forms of Erosion	127
5.1	The Importance of Nature Conservation	130
5.2	Broad Habitat Types in the Upland Environmental Zones as defined by CS2000	134
5.3	Plant Adaptations to Alpine Environments	135
5.4	Alpine Vegetation: Montane heaths and related vegetation	140
5.5	Sub – Alpine Vegetation: Tree line and Woodlands	145
5.6	Sub-Alpine Vegetation: Dry Heath	151
5.7	Heather Requirements of Different Land Uses on a Moorland	156
5.8	Sub-Alpine Vegetation: Grasslands	158
5.9	Indicator Species of Semi-natural Grasslands	160
5.10	Commercially Available Upland Hay Meadow Seed Mixes	163
5.11	Sub-Alpine Vegetation: Bogs & Mires	167
5.12	Blanket Mire Activity	168
5.13	Costs of Reducing Stocking Rates for farmers on DSH in 1988	172

5.14	Habitat Diversity in Upland England Natural Areas	176
5.15	Land Management Issues in Upland England Natural Areas	176
6.1	Gross and Net Margins of UK Farms 2002	180
6.2	Net Farm Incomes 1999 to 2004	184
6.3	Comparison of Labour Times various Enterprises	192
6.4	Changing Agricultural Labour Force in LFAs 1991 to 2000	194
6.5	Changing Agricultural Labour Force in English Upland National Parks 1990 to 2000	194
6.6	Farm Sizes in Three Cumbrian Massifs	197
6.7	The Restructuring Spectrum	199
6.8	Physical Resource Audit	200
6.9	Costs of Two Diversification Examples	201
6.10	Diversification in LFAs and National Parks 2002	203
6.11	On farm Agricultural Diversification Options	205
6.12	Woodland Grants available in the UK 2009	207
6.13	Market for Farm Timber	208
6.14	Farmers Markets in South East Cumbria 2009	210
7.1	Farm Characteristics and Diffusion of Innovation	219
7.2	Values and Motivations of Farmers	222
7.3	Individual Ranked Point Scores for 3 Upland Massif Farmers	225
7.4	Farmer Values by Class of 3 upland Massifs	226
7.5	Market and Non-Market Outputs from Agriculture	231
7.6	Example of Grading Qualities and Attributes of Upland Landscapes	233
7.7	A Comparison between Farmer and Public perceptions of the Benefits of Upland Farming	233
7.8	Social Capital in Upland Farming	235
8.1	Objectives of Agricultural Policy	248
8.2	Objectives of Article 39 of the Treaty of Rome	254
8.3	Guidance Payment Proportions in LFAs	256
8.4	Defining the Disadvantaged Area in the UK Directive 84/189	257
8.5	Critique of the Environmentally Sensitive Areas Scheme	260
8.6	Percentage of Upland ESA Agreement land in Tiers 1 and 2	261
8.7	Selected Uptake Statistics by Tier for Upland ESAs 1986 to 2001	261
8.8	Agri-Environmental Initiatives operating under Regulation 2078/9	266
8.9	HLCA Evaluations in the UK in Preparation for Agenda 2000	268
8.10	RDP Schemes	271
8.11	Summary of Cross Compliance Requirements 2005	273
8.12	SPS Payments: Land Entitlements	278
8.13	Components of a Farm Environment Plan	284
8.14	Some Upland options available under Higher Level Stewardship	285
9.1	The Measures under EAFRD	293
9.2	Budgetary allocations and RDP Objective in the UK 2007-2013	294
9.3	The English Upland Entry Level Scheme	296
9.4	Prescription Requirements and Options under UELS	297
9.5	Glastir	298
9.6	Upland Ecosystem Services	302
9.7	Rising fuel costs	310
9.7	Biophysical Criteria under review by EU for new LFA Designation	317
9.8	EU Enlargement	318

List of acronyms

AAPS	Arable Area Payments Scheme
ABC	Abiotic-Biotic-Cultural
AD	<i>Anno Domini</i>
ADAS	Agricultural Development Advisory Service
AHDS	Agriculture & Horticulture Development Scheme
ALC	Agricultural Land Classification
AONB	Area of Outstanding Natural Beauty
ASSI	Areas of Special Scientific Interest (Northern Ireland)
BAP	Beef Annual Premium
BAP	Biodiversity Action Plan
BGMS	Broads Grazing Marsh Scheme
bp	before present
BSE	Bovine Spongiform Encephalitis
CAP	Common Agricultural Policy
CCW	Countryside Council for Wales
CEC	Cation Exchange Capacity
CEH	Centre for Ecology and Hydrology
CMS	Countryside Management Scheme (for Northern Ireland)
CoCo	Countryside Commission
Cr	'C' soil horizon on the regolith
CS2000	Countryside Survey 2000
CSS	Countryside Stewardship Scheme
CVM	Contingent Valuation Method
DA	Disadvantaged Area
DARD	Department of Agriculture and Rural Development
DEFRA	Department of Environment, Food and Rural Affairs
DM	Dry Matter by herbage
DMC	Dry Matter Content
DSH	Dwarf Shrub Heath
EAGF	European Agricultural Guarantee Fund
EAGGF	European Agricultural Guidance and Guarantee Fund
EAFRD	European Agricultural Fund for Rural Development
ECS	Energy Crop Scheme
EIM	Environmental Information Map
ELC	European Landscape Convention
ELS	Entry Level Scheme
ERDP	England Rural Development Program/ Plan (2000-2006)
ESA	Environmentally Sensitive Area
ESS	Environmental Stewardship Scheme
ESU	European Size Unit
EU	European Union
FAO	Food and Agriculture Organisation
FEOGA	<i>Fonds Europeen d'Orientation et de Garantie Agricole</i>
FEP	Farm Environment Plan

FER	Farm Environment Record
FFTS	Fell Farming Traineeship Scheme
FHDS	Farm & Horticulture Development Scheme
FMD	Foot and Mouth Disease
FPS	Farm Practices Survey
FRCA	Farming and Rural Conservation Agency
FWPS	Farm Woodland Premium Scheme
FYM	Farm Yard Manure
GAEC	Good Agricultural and Environmental Condition
GATT	General Agreement of Tariffs and Trade
GDP	Gross Domestic Product
HAP	Habitat Action Plan
HFA	Hill Farm Allowance
HGMM	Hill Grazing Management Model
HLCA	Hill Livestock Compensatory Allowance
HLMMS	Hill Lamb and Mutton Marketing Scheme
HLS	Higher Level Scheme
HNV	High Nature Value
HRA	Historic Reference Amount
IACS	Integrated Administration and Control System
IPA	Importance Performance Analysis
IPCC	Inter-Governmental Panel on Climate Change
ITE	Institute of Terrestrial Ecology (now CEH)
JCA	Joint Character Area (now NCA)
JNCC	Joint Nature Conservancy Council
LAG	Local Action Group
LBAP	Local Biodiversity Action Plan
LCA	Land Capability for Agriculture (Scotland)
LDNPA	Lake District National Park Authority
LEADER	<i>Liaisons Entre Actions de Developpement de l'Economie Rurale</i>
LFA	Less Favoured Area
LFASS	Less Favoured Areas Support Scheme
LKS	Local Knowledge System
LMCMS	Land Management Contract Menu Scheme
LRLIS	Livestock Rearing Land Improvement Scheme
LRR	Lagging Rural Region
LU	Livestock Unit
MAFF	Ministry of Agriculture, Fisheries and Food
MEA	Millenium Ecosystem Assessment
MLURI	Macauley Land Use Research Institute
MTR	Mid Term Review
NAI	National Areas Initiative
NCA	National Character Area (was JCA)
NCC	Nature Conservancy Council (a pre cursor to Natural England)
NFFO	Non Fossil Fuels Obligation
NFI	Net Farm Income
NFU	National Farmers Union
NICMS	Northern Ireland Countryside Management Scheme
NNR	National Nature Reserve
NUMRP	Northern Uplands Moorland Regeneration Project
NYMPA	North Yorkshire Moors National Park Authority
NVC	National Vegetation Classification
NYM	North York Moors
OD	Ordnance Datum
OFS	Organic Farming Scheme
OGA	Other Gainful Activity
OLS	Organic Level Scheme
PDO	Protected Designation of Origin
PGI	Protected Geographical Indication
pH	Measure of acidity/ alkalinity
PMG	Processing and Marketing Grant
PSA	Point Score Analysis
PSA	Public Service Agreement
R	Regolith

RBST	Rare Breeds Survival Trust
RDPE	Rural Development Plan for England (2007 to 2013)
RDR	Rural Development Regulation
RES	Rural Enterprise Scheme
RICS	Royal Institute of Chartered Surveyors
RPA	Rural Payments Agency
SAC	Special Area of Conservation
SAP	Sheep Annual Premium
SAP	Species Action Plan
SCP	Suckler Cow Premium
SDA	Severely Disadvantaged Area
SES	Social Ecological System
SFSC	Short Food Supply Chain
SGM	Standard Gross Margin
SLF	Sustainable Livelihoods Framework
SLR	Standard Labour Requirement
SMD	Standard Man Day
SMRs	Statutory Management Requirements
SNH	Scottish Natural Heritage
SPA	Special Protection Area (designated under EU Birds Directive)
SPS	Single Payment Scheme (also known as Single Farm Payment)
SRC	Short Rotation Coppice
SSSI	Site of Special Scientific Interest
SWES	Sheep Wildlife Enhancement Scheme
SWOT	Strength Weaknesses Opportunities and Threats
TIFF	Total Income From Farming
TSG	Traditional Speciality Guaranteed
UELS	Upland Entry Level Scheme
UK	United Kingdom
UKROFS	United Kingdom Register of Organic Food Standards
UNEP	United Nations Environment Programme
UNESCO	United Nations Educational, Scientific and Cultural Organisation
UV	Ultra violet
VTS	Voluntary Training Scheme
WES	Wildlife Enhancement Scheme
WGS	Woodland Grant Scheme
WHO	World Health Organisation
WTA	Willingness to Accept
WTO	World Trade Organisation
WTP	Willingness-to-Pay

Chemical symbols

B	Boron
Ca	Calcium
CaCO ₃	Calcium Carbonate
Co	Cobalt
Fe	Iron
H ⁺	Hydrogen
I	Iodine
K	Potassium
Mg	Magnesium
Mn	Manganese
N	Nitrogen
Na	Sodium
NH ₄ ⁺	Ammonium
OH	Hydroxide
P	Phosphorus
S	Sulphur
Se	Selenium
Ti	Titanium
Zn	Zinc

Acknowledgements

The author would like to acknowledge the following people for providing advice, guidance and information throughout the writing of this book: Bridget Andrews of the Museum of Rural Life; Adrian Banford of Cumbria Fells & Dales RDPE; Laura Banford; Dr Kevin Butt of the University of Central Lancashire; Mervyn Edwards MBE; the late Alan Fishwick; Robin Karfoot of DEFRA; Jean Johnston of Natural England; Nadeem Raja of DEFRA; Rosina Mansfield; Terry McCormick of ACT; Rachel Pickering of the Yorkshire Moors National Park; Hilary Wilson of High Carlingill; the Library staff at Newton Rigg and the University of Cumbria.

Particular thanks is extended to Sheila Ripper for drawing the many diagrams in this book, to Gerard Hill for his long suffering editing and the folks at Badger Press, especially Steve.

The author would also like to express her deepest gratitude to sponsorship of the Nineveh Trust without whom this book would not have seen the light of day.

Finally I'd like to thank Brian Ilbery and Julius Mage who first introduced me to agricultural geography.

*Lois Mansfield
November 2011*
