Welcome From AOTA President Amy Lamb

We are excited to welcome you to the 2019 AOTA Annual Conference & Expo in New Orleans! As they say here, laissez les bons temps rouler or let the good times roll, and we certainly will! With a brilliant restaurant scene that reflects New Orleans' diverse history, and plenty of shopping and nightlife within walking distance, you are sure to experience the city's unique culture and infectious spirit during this year's Annual Conference & Expo.

The AOTA Annual Conference & Expo is the largest gathering of our profession in the in the world and I invite you to take advantage of all that it has to offer — access to leaders in our field, the latest evidence-based learning, amazing networking, and so much more.

There are many activities, education sessions, and special events to take part in at the 2019 AOTA Annual Conference & Expo. Please take a moment to read through the Conference Program Guide or view the Conference App so you don't miss any of these exciting opportunities. I encourage you to attend Wendy Hildenbrand's inaugural Presidential Address on Saturday at 11:45 am where she'll share the "new 3 R's" fundamental to resetting our focus forward in response to change and uncertainty impacting our profession.

I also hope that you will join me for my final Presidential Address this Friday at 11:45 am. In my Farewell Address, we will explore how stepping outside of our comfort zone can lead to real and powerful change. Please also consider joining me in attending the Welcome Ceremony, Eleanor Clarke Slagle Lecture, Town Hall Meeting, Expo Hall, and so many of the other opportunities available to you!

As we approach June 30, 2019, and my term comes to an end, I also want to thank you for your support over the last 3 years. Words cannot express what an honor and privilege it has been to serve as your AOTA President. It is an experience I will always cherish.

Laissez les bons temps rouler!

Amy J. Lamb, OTD, OT/L, FAOTA

Greetings From the Local Conference Committee

On behalf of the 2019 Local Conference Committee (LLC), welcome to N'Awlins! The hundreds of occupational therapists, occupational therapy assistants, and students who live and work in the New Orleans area feel privileged to host the 2019 AOTA Annual Conference & Expo. Events held in New Orleans aren't the same as events held in other cities. The excitement to be in one of the world's most storied and culturally rich destinations is contagious, as the city just celebrated its tricentennial. Traditional, old-time jazz music enlivens the soul; the cuisine is incomparable; and the city's charm captivates. New Orleans is the perfect place to learn, network, relax, and indulge.

Once the meetings are over, the city's renowned restaurants and music clubs are a great way to relax and have fun. The world-famous attractions of the French Quarter lay just steps away from the freshly renovated New Orleans Ernest N. Morial Convention Center, while the historic St. Charles streetcar line runs past the elegant homes of the Garden District. The uniqueness of New Orleans transforms an ordinary Conference visit into an unexpected experience.

In New Orleans, every meal is like one for the history books. Our Louisiana roots run deep inside a culinary wonderland drawn from French, Spanish, African, Sicilian, Caribbean, Irish, German, and American Indian cultures. Add a dash of country comfort and a pinch of sophistication, and you've got a recipe for the best food on the planet. From high-end eateries with critically acclaimed chefs to smaller off-the-radar spots with the world's best "something," NOLA has a flavor for every palette.

It is no accident that Louisiana clings to the phrase, Laissez les bons temps rouler, which is French for "Let the good times roll." This theme will carry us through the Conference. As you plan your stay in this exciting city, here are things you won't want to miss:

- **A carriage ride** through the French Quarter, making sure you stop for delicious beignets and café au lait at Café du Monde. Then wander through the French Market, making sure you grab a few pralines.
- **The beautiful St. Louis Cathedral**, the iconic structure that presides over Jackson Square, beckons you inside. Stop in the gift shop and pick up a St. Christopher token to give you good luck on your travels. From the Cathedral porch, you will see amazing artists displaying their work around Jackson Square.
- A marathon tour of the many **amazing New Orleans museums**, including the Ogden Museum of Southern Art, and the world-renowned National World War II Museum, which focuses on the personal stories of the war. These are even more poignant in the presence of the veterans who volunteer at the museum. The 4D movie will knock your socks off—and give your weary feet a much-needed break.
- New Orleans style, experienced by hopping on the **St. Charles Avenue streetcar**, which will take you past breath-taking historical houses. Check out Magazine Street, a very cool area upriver from the French Quarter. Relax on a patio with delicious food and a cold beverage, such as a flavorful local beer from Abita Brewing.
- Experience history, with a **tour of a plantation** where the daily activities of the past are recreated. Let nature's mysteries inspire and awe you via a boat tour through a cypress-studded bayou. The cemeteries in New Orleans are unlike anywhere else. The tombs are above ground due to the city's high water table and frequent flooding. The tours and sights are unforgettable.
- **Souvenir shopping**, where you can find a variety of Louisiana hot sauces, beignet mix, voodoo dolls, and of course Mardi Gras beads. Canal Place, which houses Saks, Tiffany and New Orleans' own Mignon Faget, and the Outlet Collection at Riverwalk are feet away from the Convention Center, as you cruise along the Mississippi River.
- **Regional foods** you must try, including crawfish, chargrilled oysters, beignets, po-boys, and muffulettas. Wash it down with a historic "Hurricane" beverage from the famous Pat O'Brien's, and don't forget to get a picture in front of the flaming fountain or inside the vibrant piano bar.
- **Mardi Gras World**, which will give you a flavor of the city's signature party. This huge warehouse along the Mississippi River, at the edge of the Convention Center, offers tours of the giant floats, figurines, costumes, and Carnival decor used in the parades and Mardi Gras balls.

Conference Information

Conference Ribbons

Attendees who qualify to wear special designation ribbons at the Conference can pick them up at AOTA Central located in the Expo Hall. Select ribbons will also be available Wednesday and Thursday (prior to Expo opening) in the main and satellite registration areas, while supplies last.

Badge and Event Tickets

To be admitted to any Conference activity, you must wear your official 2019 Annual Conference & Expo name badge. Tickets purchased for special events will be printed with your badge and must be presented for entry.

Guidelines for Reporters & Film Crews

AOTA welcomes members of the media to the Annual Conference & Expo; however, interviews, broadcasts, filming, and photography can only take place with advanced approval of AOTA's media relations office. To review guidelines, visit www.aota.org/mediaguidelines. Press badges are required for entrance to all Conference activities. To obtain a press badge, please contact AOTA's Manager of Media & Public Relations, Katie Riley at 301-652-6611, ext. 2963 or kriley@aota.org.

Newsroom for Journalists. AOTA has a designated room for attendees and exhibitors to leave media kits for members of the media. The newsroom for journalists will be in I118 and I119 at the Ernest N. Morial Convention Center and open from 9:00 a.m. to 6:00 p.m. Thursday through Saturday. Journalists are welcome to use this room for conducting interviews, or working on other AOTA-related business.

Accessibility Services

Accommodations for individuals with accessibility needs have been made available to enable access to all scheduled programming. As is our policy, it is the responsibility of the attendee to make any accessibility needs known prior to attendance at the Conference. Advance notification provides AOTA adequate time to ensure that it can arrange for requested services.

All educational session rooms have reserved seating at the front of the room, for those who have hearing or vision issues. These reserved seats are clearly identified with signage. In addition, each room has cutouts for scooters or wheelchairs.

Please stop by the Information & Hospitality Booth in the Ernest Morial Convention Center for any assistance.

Selection of Sessions for Presentations:

The 2019 AOTA Annual Conference & Expo sessions are selected for presentation each year by more than 250 volunteers in the Call for Papers review (with the exception of AOTA, AOTF, and SIS sessions). The blind peer-reviewed process includes general-related submissions reviewed by at least four separate individuals and research-related sessions reviewed by at least two separate doctoral-prepared researchers. With a highest rating of 45 points, all sessions that score higher than 36.75 points are considered for scheduling. Scheduling is then based on primary topic categories such as children and youth, productive aging, and others; space availability, and a balanced program that meets the diverse needs of the attendees. Practitioners and educators are invited to join the volunteer review team. If you are interested in volunteering, please send an email to conference@aota.org. At the conclusion of the review process, you will receive a letter documenting your participation.

Food and Beverage Services in Convention Center

Food and beverage services are available during Conference hours and concession stands will be open to serve breakfast and lunch items. The Expo Hall Opening Reception on Thursday will include an array of hors d'oeuvres and a cash bar. If you prefer to leave the convention center for a meal, stop by the **Information & Hospitality Booth** in the Registration area for names and locations of nearby restaurants.

Wi-Fi Access in Convention Center

Complimentary wireless access is being provided to registered attendees within AOTA's meeting space including the exhibit hall. **The network name is: AOTA2019**

Twitter Spot

Come see your tweets and Instagram posts on the big screen! Use the #AOTA19 hashtag and you may be featured. See what's happening on social media today!

Coat Check

Coat and bag check will be available for $2 per coat and $3 per bag during program hours in front of the Coat Check Room. **Do not check valuables of any kind, including electronics. Items left with the attendants will be at your own risk.**

Lost and Found

Attendees are responsible for the safekeeping of their personal property. The Lost and Found area is located at the Support and Solutions desk. After the conference, unclaimed articles will be turned over to the Convention Center.

Online Conference Handouts

Handouts for the 2019 Conference will be available to attendees in the app. As you build your itinerary, you will be able to download all available handouts for the educational sessions that you have selected. For instructions, go to Conference Info icon and select handouts.

PLEASE NOTE: While speakers are encouraged to provide handouts, it is NOT a requirement. Not all sessions will have handouts based on the speakers' choice.

Make sure you bring a pad of paper to take notes and AOTA will provide the pen. Not to worry if you missed any handouts; these will remain available online after Conference.

Conference Recording and Photography

AOTA staff members, as well as official photographers/videographers, will photograph and record events and educational sessions throughout the Conference and will be identified by Conference name badges. The photographs and audio/video recordings taken at the Conference are used exclusively by AOTA for promotional purposes and continuing education offerings. Photographs and recordings may be used in the Association's publications, social media, or on its website, and they may appear in programs or other AOTA promotional materials.

If you are at an event or session at which an AOTA photographer is present and you do not wish to be photographed, please identify yourself to the photographer and your request will be respected.

Fitness Events Waiver

AOTA recognizes that many Conference attendees enjoy participating in fitness-related events to promote their own individual health and wellness. Towards that end, AOTA is pleased to offer these types of events. However, participation is at your own risk. AOTA encourages you to participate at a level that is consistent with your general physical health and abilities. By participating in the fitness events you do hereby release and forever discharge AOTA, its agents and employees, from any and all claims in connection with the AOTA fitness events.

LET'S SHAPE THE FUTURE OF OT TOGETHER
START THE CONVERSATION AT BOOTH 1152

As we join together at this year's conference, let's work together to grow towards AOTA's Vision 2025. Quinnipiac University's Department of Occupational Therapy is committed to supporting this vision by inspiring practitioners to become agents of change within the profession.

Our online Post-Professional Occupational Therapy Doctorate program is designed to help licensed occupational therapists merge their current experience with prevailing professional knowledge and scholarship to differentiate themselves as leaders in their respective communities. Together, we can influence change to improve the quality of life for all.

Overflow Sessions

For the past several years, the AOTA Annual Conference & Expo has experienced significant growth. Average attendance has grown from 4,000 to more than 10,000. Here is what we are doing to accommodate this growth:

1. Speakers and topics that we know are large draws will be in the largest rooms available. In New Orleans, we have session rooms that can accommodate anywhere from 265 to more than 1,000 attendees. The majority of the session rooms accommodate more than 400 attendees.
2. We schedule most rooms to have theater-style seating so we can accommodate as many attendees as possible. We also want to ensure your comfort so we allow for more legroom than most airlines!
3. We have worked with the staff at the Morial Convention Center, and they are allowing attendees to stand along the walls and back of the room if no seats are available. You must keep the central aisle and the doors free in the event of an emergency evacuation.
4. We have scheduled the majority of sessions by Content Focus. If you are closed out of a particular session, a similar Content Focus session will be in a nearby room. Refer to the digital signage on site and the map with Content Focus in the app.

Unfortunately, there may still be sessions that have more people than we expected, and even the biggest rooms sometimes don't have enough space for everyone who wants to attend. To accommodate as many people as possible, we would appreciate your assistance:

1. Please do not save seats for a colleague. It is not fair to the other attendees.
2. Please place your tote, purse, etc., under your seat so the adjoining seat is free for an attendee.
3. If the door monitors have deemed that a session has reached maximum capacity, please respect their decision. Always have a backup plan in case you are not able to gain access to a particular session. There are usually 25 concurrent sessions and a Poster session available. Please also understand that we can't move a session at the last minute, as all available rooms are scheduled. In addition, we are unable to repeat sessions as all rooms have been scheduled throughout Conference.

Thank you for your understanding.

Speakers Index

If you are looking for a specific speaker, please check the app (See Tab 1).

Session Etiquette

Please adhere to the following session protocol to show respect to Conference presenters and session attendees. Once you enter a session, please remain until the presenters announce a break, and please silence your mobile phone while in a session.

As a courtesy to the speakers, please do NOT take any images or video of their presentations/posters without their prior approval.

Meetings

AOTA business is discussed at numerous meetings during the Conference. All official committee and commission meetings of AOTA are open for audit by the membership, except when deliberations are of a confidential nature. All meetings are listed on page 136–137.

Alumni Receptions

Alumni gatherings are held at the discretion of each educational program. Please visit the **Information & Hospitality Booth** outside Hall H to see if your school has scheduled an alumni reception. A list is also available in the Conference app.

Statement of Ethics and Conduct

The American Occupational Therapy Association (AOTA) is a non-profit professional membership organization. As a professional organization, AOTA has an official document, the *Occupational Therapy Code of Ethics* (2015) by which occupational therapists, occupational therapy assistants, and students are expected to abide. The purpose of the Code is to promote and maintain high standards of professional conduct. AOTA expects that each participant follows the Code, as well as his or her own personal code of honor for attendance and participation in Conference, educational events and meetings sponsored by AOTA. ***Sharing of a name badge, attending educational sessions without paying the appropriate registration fee, and/or reproduction and use of any presentations and handout information without the author's/speaker's express permission are examples of unethical conduct and may result in disciplinary action by the Ethics Commission.***

Your Feedback Makes A Difference!

We know you love Annual Conference and we love it too! AOTA has made the following changes for 2019!

- **Welcome Ceremony Processional**—We have more volunteer groups being recognized during the processional. It is one more way we can celebrate volunteer leadership.
- **Housing Website**—We have contracted with a new housing vendor. While there were some initial hiccups, the new system is much more robust and user friendly. In addition, the ADA site is better ensuring that those attendees who need an ADA room are now able to reserve the correct type of room.
- **Conversations that Matter**—These highly popular, interactive sessions can become very busy. We are trying different seating to encourage more conversations and interaction.
- **Posters Layout**—Posters are an important part of the Conference experience. We have made tweaks to the spacing so you have more space to maneuver through the various clusters. The clusters have been created using primary topic categories.
- **Time to Exercise**—We have some new fitness opportunities for you this year including PiYo and Zumba. Help us collectively reach 50,000,000 steps at #AOTA19 through the highly popular OT Step Challenge. Attendees with top steps for the day will win free AOTA swag.
- **Welcome Ceremony**—Be prepared to be entertained as you can only be in New Orleans.
- **Ask YOUR AOTA Expert**—This popular activity is back with more opportunities to interact with leaders in the profession and AOTA staff. See schedule on right.
- **Handouts**—We continue to make changes in order to make it easier for you to receive handouts, from those speakers who choose to provide them.
- **Overflow**—We have made changes to how we handle overflow situations. For more information go to 11.
- **Entrepreneur Sessions**—On Saturday, we have scheduled two sessions on how to establish your own private practice. See page 16–17.
- **Critically Appraised Papers**—Are now part of the poster presentations. Look for them throughout the poster sessions.
- **Seating in the Expo Hall**—Additional seating has been prominently added to a high traffic areas on the expo floor, as well as to the perimeter of the Expo Hall. This will allow you to take a break.

Starting Sunday, April 7th the Conference survey will be available via the app. Your participation is important for AOTA to continue making improvements to the Annual Conference & Expo.

Measurement of Occupational Participation Across Populations and Disability Groupings

Patricia J. Scott, PhD, MPH, OT, FAOTA

A priority of the World Health Organization is to establish a measure of participation, the results of which can be aggregated across populations and disaggregated across disability categories. This is a huge opportunity for occupational therapy. In this presentation, the work of occupational therapists from 8 countries is used to establish the Role Checklist Version 3 as a solution consistent with the International Classification of Functioning, Disability and Health (ICF). The Role Checklist, based on MOHO, has been translated using cross-culturally valid guidelines in six languages, with many more in progress. Examples of how roles vary across these 8 countries and how the findings influence occupational therapy treatment will be highlighted.

Welcome Ceremony & Keynote CE

Dr. Grace Dammann is a Bay-area physician whose car was hit head on by another driver as she crossed the Golden Gate Bridge. After awaking from a long coma with massive internal injuries and 17 fractures, she spent the next year in rehabilitation facilities. Grace and her former partner Fu Schroeder will share how occupational therapy supported their journey of recovery, caregiving, and adjusting to life with a disability. Their remarkable story is captured in the award-winning documentary, *States of Grace*, which follows Grace's recovery for 4 years after she returns home.

Climb Back from Cancer!

Alan Hobson, Mt. Everest Summiteer and Cancer Survivor

At the age of 29, international best-selling author and worldwide adventurer Alan Hobson set out to realize his dream of standing on the top of the world. It took him 10 grueling self-guided and self-organized expeditions to high altitude and three expeditions to Mt. Everest to realize his dream. Three years later, he found himself at the bottom when he was diagnosed with leukemia and given less than a year to live. Thanks to raw courage, a strong spiritual faith, and the miracles of modern medicine, he not only survived but thrived and regained his elite level of fitness. His message to other cancer patients, survivors, and caregivers is that his 'Inner Everests' have dwarfed his outer one…Success isn't about height. It's about depth—the depth of our experiences and the depths to which we must sometimes reach to climb back from our setbacks in life.

Asserting Our Competence and Affirming the Value of Occupation With Confidence

Ellen S. Cohn, OTR, ScD, FAOTA

Throughout the years, leaders in the profession have challenged us to affirm the value of occupational therapy and to substantiate what we do. Occupational therapy practitioners have always focused on what most matters to clients, now called client-centered or patient-centered practice. We have also focused on client function to enable participation in everyday life. In a welcome shift, society's views about health and meaning-making are becoming more congruent with the long-standing ideals of occupational therapy. Now, more than ever, we have a powerful opportunity to communicate our competence. But how do we assert our competence and the complexity of occupation with confidence? This lecture will draw on the conceptual foundations of theories about competence and confidence and provide examples from research literature, practitioner and client narratives, and popular culture to illustrate the factors that enable us to effectively demonstrate the value of occupational therapy.

Inaugural Presidential Address CE

Wendy Hildenbrand, PhD, MPH, OTR/L, FAOTA

Let's Start Here: Relationships, Resilience, Relevance

As a profession, occupational therapy is navigating choppy waters and shifting sands in health care and education arenas, academic environments, and service delivery and payment systems. While the direction of a changing tide is not always predictable or desired, the response to change is ours to own—collectively. In her Address, Wendy Hildenbrand proposes the "new 3 R's" and challenges us to return to the "basics" of our profession, specifically the shared professional characteristics needed to move us forward. It is time to reset our focus on restoring and creating meaningful yet strategic relationships, embracing our collective strength and capacity for personal and professional resilience, and committing to innovative "doing" to assure our relevance as a health and human service profession and a member-focused Association. Let's get back to basics!

Session Codes

(AOTA) sessions have been designed to address today's hottest topics, featuring invited speakers or AOTA staff. Be sure to check out sessions on advocacy, evidence-based practice, reimbursement, scope of practice, the Centennial Vision, and many more.

(AOTF) indicates sessions organized by AOTF.

AOTA Board Certification and Specialty Certification Sessions: Sessions labeled **(BASC)** are advanced sessions selected by the Board for Advanced and Specialty Certification. They are targeted to meet—either in part or whole—one criteria for either Board or Specialty Certification. Certified practitioners will be presenting these sessions and will provide guidance on how to incorporate the information into a certification portfolio.

(SIS) sessions are sponsored by the Special Interest Section (SIS) groups within AOTA. There are 9 SIS communities and four subsections, each of which have identified sessions with invited speakers.

Critically Appraised Papers (CAPs): At-a-glance summaries of the findings, methods, and study limitations of individual peer-reviewed articles.

Session Content Levels

■ **Introductory** information is geared to practitioners with little or no knowledge of the subject matter. Focus is on providing general introductory information.

◆ **Intermediate** information is geared to practitioners with a general working knowledge of current practice trends and literature related to the subject matter. Focus is on increasing understanding and competent application of the subject matter.

✹ **Advanced** information is geared to practitioners with a comprehensive understanding of the subject matter based on current theories and standards of practice, as well as current literature and research. Focus is on recent advances and trends, and/or research applications.

Session Content Focus

Each session is identified by its primary area of concentration. The content focus of a session may designate a specialized area of practice or an application to a specific age group of clients.

Continuing Education Credit

Evaluation and Treatment of Upper Extremity Musculoskeletal Impairment in Adults With Neurological Conditions
Content Focus: Rehabilitation & Disability
Christine Griffin, MS, OTR/L, BCPR, Ohio State University Medical Center, Columbus, OH
Additional Speakers: **Lisa Juckett**, MOT, OTR/L, CHT; **Lauren Wengerd**, MS, OTR/L, both of Ohio State University Medical Center, Columbus, OH

Musculoskeletal and neurological dysfunction limit many aspects of occupational engagement. This course will include an overview of the anatomy and biomechanics of the shoulder complex. Participants will learn implementable evaluation and treatment techniques to address pain and other common musculoskeletal conditions after neurological injury. Task-specific interventions will be emphasized to improve occupational performance.

Best Practice in Dementia Care: Optimizing Performance, Activity Engagement, and Quality of Life for People Living With Dementia and Their Caregivers
Content Focus: Productive Aging
Ann O'Sullivan, OTR/L, FAOTA, LSW, trainer/consultant, Scarborough, ME
Additional Speaker: **Catherine Piersol**, PhD, OTR/L, FAOTA, Thomas Jefferson University, Philadelphia, PA

OT practitioners work with people living with dementia and their caregivers across practice settings and the continuum of care. The institute will discuss the etiology of dementia, describe key models for understanding functional limitations and behavioral symptoms, and discuss evidence-based assessment and intervention strategies. Participants will apply this material to real practice examples and be able to implement the strategies in their own practice settings ongoing.

CarFit is an educational program developed in collaboration with AAA, AARP, and AOTA. Through CarFit, practitioners and students learn an injury reduction intervention for mature drivers by understanding vehicle safety feature design and individualized person-vehicle fit. The core of the program is the CarFit event, led by trained Event Coordinator, staffed by trained technicians and flexible to community settings, including one-on-one appointments. This conference CarFit training includes lecture and hands-on learning at vehicles in a "conference modified" event. Website resources and a follow-up webinar will fully equip Event Coordinators to host CarFit events. Completion of this course, plus a 30-minute follow-up webinar, will allow clinicians to achieve both CarFit Technician and CarFit Event Coordinator status. No experience in driver rehabilitation is required. Participants will be contacted prior to conference with invitation to review online materials. See www.Car-Fit.org.

ARKANSAS STATE UNIVERSITY

OCCUPATIONAL THERAPY TENURE TRACK FACULTY POSITION

Arkansas State University's Department of Occupational Therapy in the College of Nursing and Health Professions invites applications for a 9-month tenure-track faculty appointment to begin immediately. The Department of Occupational Therapy at Arkansas State University includes both accredited entry-level Occupational Therapy Doctoral (OTD)program and Occupational Therapy Assistant (OTA) programs. The Assistant/Associate Professor's primary responsibility is

to deliver instruction, carry out research, perform service, and mentor student research in the OTD program.

We gladly receive applications from candidates with the following credentials and experience: Doctoral degree required. Research doctorate preferred. (PhD, EdD, ScD). Record of teaching effectiveness. Expertise in research, population health, pediatrics,

mental health and/or community programming preferred. Ability to facilitate faculty mentored student research. Minimum of three years clinical experience. NBCOT certified and eligible for licensure as an Occupational Therapist in Arkansas.

Review of applications begins immediately and will continue until the position is filled. ASU has a vibrant campus life including sports, theatre, art, music, and more. Jonesboro, Arkansas is a city of 70,000 located one hour from Memphis, TN, two hours from Little Rock, AR, and four hours from St. Louis, MO and Nashville, TN. Come be a part of the AState family and build your legacy in our exciting new programs.

While at the conference, text Dr. Christine Wright at 502-889-6171 to set up a meet and greet or send an email to cwright@astate.edu.

Home Assessments and Modifications - The Role of an OT as Collaborative Team Leader

When home modifications are recommended by an OT, they become the Team Leader. They are responsible for collaborating with design and construction professionals to assess a home and create a plan to best meet the needs of each client for accessibility, comfort and safety. Identifying those other professionals is now possible thorough a national combined-industry effort. Teams of certified experts are being formed to partner with the OT Team Leader to access and influence the latest in both design and product development and installation. Learn how to connect with these aligned professionals to provide the best solutions for your client.

Occupational Therapy

Making the Impossible, Possible

IT'S OT MONTH!

Celebrate occupational therapy throughout April and all year by sharing the value of your profession through special events, messages, and products. Here are a few ideas to share with your colleagues, and to help you come up with even more.

Find more at

WWW.AOTA.ORG/OTMONTH

PROMOTING OT ONLINE

- **Use social media,** such as Twitter, Facebook, Instagram, and other social media sites. Share fact sheets, tip sheets, and links to other resources. Participate in a health care–related Twitter chat and share how OT can help people across the lifespan. Be sure to use the hashtag #OTMonth. Learn more at **www.aota.org/OTMonth**.
- **Follow AOTA on Facebook, Twitter, and Instagram** to learn about easy ways to promote the profession during April—including using the OT Facebook profile frame!

PROMOTING OT IN THE NEWS

- **Write to a news outlet.** Most print and online news outlets accept letters to the editor and guest columns. OT Month is a great time to submit one about occupational therapy. Be sure to check the outlet's guidelines.
- **Share a photo or video clip.** Many television and web outlets accept photos and video clips of local events and success stories. Just be sure to get your subjects' permission.

PROMOTING OT TO THE COMMUNITY

- **Offer to speak to local groups** such as area agencies on aging, parent-teacher associations, Chamber of Commerce, Lions Club, Rotary, etc., to let them know how occupational therapy services can help families in any number of ways. Use AOTA's presentation resources.
- **Open your facility for tours, OT practice demonstrations, or receptions** to give others first-hand insight into what occupational therapy practitioners do.

REMEMBER, YOU ARE A CHAMPION FOR OCCUPATIONAL THERAPY. HELP SPREAD THE WORD!

InMotion Robotics for Upper-Limb Rehabilitation: Objective Evaluation Tools for Documenting Patient Progress

This seminar will introduce the InMotion Evaluation; a set of robotic outcome measures that precisely record patient's motor performance and produce kinematic measures that correlate to clinical scales of upper extremity motor function, such as the Fugl-Meyer Assessment. Clinical evidence will be discussed showing the InMotion Evaluation as a reliable tool to objectively track and document change in motor performance both during and over a patient's episode of care.

Home Assessments and Modifications - The Role of an OT as Collaborative Team Leader
When home modifications are recommended by an OT, they become the Team Leader. They are responsible for collaborating with design and construction professionals to assess a home and create a plan to best meet the needs of each client for accessibility, comfort and safety. Identifying those other professionals is now possible thorough a national combined-industry effort. Teams of certified experts are being formed to partner with the OT Team Leader to access and influence the latest in both design and product development and installation. Learn how to connect with these aligned professionals to provide the best solutions for your client.

CALL FOR PAPERS

2020 AOTA Annual Conference & Expo

Boston, MA · March 26–29, 2020

Proposal Deadline: June 5, 2019

AOTA invites you to share your practice innovations, research, and experiences by submitting a proposal to present at the 2020 AOTA Annual Conference & Expo in Boston, Massachusetts, March 26-29, 2020. Proposals can be submitted at any time from May 1st until 11:59 PT June 5th, 2019. Visit the Call for Papers page at www.aota.org/callforpapers for detailed instructions and proposal templates. For those who have submitted a proposal before, you can use your previous login information.

You must indicate whether your proposal is a general submission or a research-related submission. General submissions can focus on practice, administrative, professional, and academia topics. Research-related submissions can address assessment/measurement; prevention and intervention; and translational, basic, and health services research. Elements required for a proposal and the criteria for scoring are different for each type of submission. Peer reviewers with earned research doctorates review all research-related submissions.

For each proposal submitted, you will be asked to choose from one of the following session types: Pre-Conference Institute (full day), Workshop (3 hours), Short Course (90 minutes), Research Paper (20 minutes), Tech Lab Session, or Poster Session. All research papers will be part of the Scientific Research Panels.

You will also be prompted to identify a primary and secondary content focus, selecting from a menu of options reflecting an array of subject matter and categories. These content-focus selections are used to categorize sessions in the Conference program and to assist the proposal reviewers in selecting topics relating to their expertise. You will notice a change in the primary topic categories. Please make your selections carefully.

Proposals will be peer reviewed during the summer, and final selections will be made in October 2019. This peer review is based solely on the content and quality of the written proposal (i.e., the title, content focus, learning objectives, abstract and synopsis, references, and completeness of the submission). Neither names nor affiliations are provided to the reviewers. All submissions are given equal opportunity, and names of both submitters and reviewers remain anonymous.

In late fall, there will be an additional Call for Late Breaking Research Posters and Conversations that Matter.

Note: First time submitters—please be sure to review the audiotape, "How to Submit a Proposal" on the AOTA website at www.aota.org/callforpapers. It covers both general submissions and research-related submissions. It is approximately 60 minutes in length.

Your involvement determines the outstanding professional development opportunities that AOTA continues to deliver. Please accept this invitation to submit your proposal for the premier educational opportunity of the year—the 2020 AOTA Annual Conference & Expo!

If you have any questions or concerns or require assistance, please email conference@aota.org or call 800-SAY-AOTA, ext. 2050 (members) or 301-652-6611, ext. 2050 (nonmembers or local callers), and we will be pleased to assist you.
