Usage of any items from the University of Cumbria's institutional repository 'Insight' must conform to the following fair usage guidelines.

Any item and its associated metadata held in the University of Cumbria's institutional repository Insight (unless stated otherwise on the metadata record) may be copied, displayed or performed, and stored in line with the JISC fair dealing guidelines (available [here](#)) for educational and not-for-profit activities

provided that

- the authors, title and full bibliographic details of the item are cited clearly when any part of the work is referred to verbally or in the written form
 - a hyperlink/URL to the original Insight record of that item is included in any citations of the work
- the content is not changed in any way
- all files required for usage of the item are kept together with the main item file.

You may not

- sell any part of an item
- refer to any part of an item without citation
- amend any item or contextualise it in a way that will impugn the creator's reputation
- remove or alter the copyright statement on an item.

GeoWeek 2022 Symposium
Communication Measures to Bridge 4.543 billion years

University of Cumbria, Institute of Arts, Brampton Road Campus.
Carlisle, Cumbria. CA3 9AY.

Symposium: Thursday May 12th & Friday May 13th 2022 LR2
Exhibition at The Vallum Gallery, Brampton Road: 9th - 13th May 2022

The University of Cumbria Institute of Arts' Arts Research Initiative (ARI) in partnership with Tullie House Museum for the national event *GeoWeek** offers a free public symposium at our Brampton Road Campus in Carlisle. The event aims to explore themes of cultural engagement with the geologic, particularly through the interpretations of artists and cultural practitioners. The Cumbrian region has a rich history of such investigations from luminaries such as Wordsworth, Turner, West, Martineau, Southey, Atkinson, Graves, Nicholson, Harrison and Fell. This Symposium will present 18 papers over two days which respond to different aspects of *GeoWeek*, focusing on themes such as the Anthropocene, *Deeptime*, strata, underworlds, crystals and landforms, seen through the lens of contemporary art and cultural interventions. Keynote speakers include American artist **Bryan McGovern Wilson** and Glasgow based artist **Ilana Halperin**. Additionally, the Institute's Arts Research Group of doctoral researchers (ARG) will also present artworks and films at The Vallum Gallery at the Brampton Road Campus throughout *GeoWeek* 9-13th May.

Dr Penny Bradshaw's GeoWeek workshop at Brantwood on *Geology and Identity in Cumbrian Literature*, will take place on Monday May 9th 10:30-12:30
