Usage of any items from the University of Cumbria's institutional repository 'Insight' must conform to the following fair usage guidelines.

Any item and its associated metadata held in the University of Cumbria's institutional repository Insight (unless stated otherwise on the metadata record) may be copied, displayed or performed, and stored in line with the JISC fair dealing guidelines (available [here](#)) for educational and not-for-profit activities

provided that

- the authors, title and full bibliographic details of the item are cited clearly when any part of the work is referred to verbally or in the written form
 - a hyperlink/URL to the original Insight record of that item is included in any citations of the work
- the content is not changed in any way
- all files required for usage of the item are kept together with the main item file.

You may not

- sell any part of an item
- refer to any part of an item without citation
- amend any item or contextualise it in a way that will impugn the creator's reputation
- remove or alter the copyright statement on an item.

The full policy can be found [here](#).

Alternatively contact the University of Cumbria Repository Editor by emailing insight@cumbria.ac.uk.

THE VILLAGE

CHARLIE DOUGLAS-BROWN

WITH JEANNE LANDON-CAMPBELL

THE CURRENT STATE

- There are 29 communities (electoral wards) in Cumbria that are ranked as the most deprived in the country
- Life expectancy is 16 years lower for men and 14 years lower for women in these communities than in other areas of Cumbria
- In terms of children's health, children from the deprived areas of Cumbria are more likely to have a low birth weight (less than 2.5 kg), die before their first birthday, have higher levels of dental decay, have poorer educational outcomes, participate in risk taking behaviours such as smoking and drinking alcohol and have poorer mental health

IT TAKES A VILLAGE TO RAISE A CHILD" IS A PROVERB THAT MEANS THAT AN ENTIRE COMMUNITY OF PEOPLE MUST PROVIDE FOR AND INTERACT POSITIVELY WITH CHILDREN FOR THOSE CHILDREN TO EXPERIENCE AND GROW IN A SAFE AND HEALTHY ENVIRONMENT.

WHO IS "THE VILLAGE"?

Parents

Friends

Neighbours

Wider Family

Professionals, eg
GP, social
worker, teacher,
health visitor

HOW CAN WE FACILITATE CHANGE?

Arrange yourselves in to small groups of 2, 3 or 4 and think about small ways in which you could support families and children and be a positive part of their "Village"

FEEDBACK

"There comes a point
where we need to stop
just pulling people out
of the river.

We need to go upstream
and find out why they're
falling in."

- ARCHBISHOP DESMOND TUTT -
