Usage of any items from the University of Cumbria's institutional repository 'Insight' must conform to the following fair usage guidelines.

Any item and its associated metadata held in the University of Cumbria's institutional repository Insight (unless stated otherwise on the metadata record) may be copied, displayed or performed, and stored in line with the JISC fair dealing guidelines (available [here](#)) for educational and not-for-profit activities

provided that

- the authors, title and full bibliographic details of the item are cited clearly when any part of the work is referred to verbally or in the written form
 - a hyperlink/URL to the original Insight record of that item is included in any citations of the work
- the content is not changed in any way
- all files required for usage of the item are kept together with the main item file.

You may not

- sell any part of an item
- refer to any part of an item without citation
- amend any item or contextualise it in a way that will impugn the creator's reputation
- remove or alter the copyright statement on an item.

The full policy can be found [here](#).

Reviewing the standards of proficiency

We keep our standards under continual review, to look at how they are working and check whether they continue to reflect current practice. We also conduct a periodic review of the standards every five years.

In August 2022, we updated our standards of proficiency for the first time since 2015. The changes, which will come into effect on 1 September 2023, have been made following an extensive period of engagement with a wide range of stakeholders.

We will provide a host of resources and activities which will assist different stakeholder groups prepare ahead of the implementation date.

The revised standards set clear expectations of registrants' knowledge and ability in a healthcare landscape which has changed and evolved in the wake of the COVID-19 pandemic. Updating them is a crucial component in fulfilling our purpose to promote excellence in the professions we regulate, and championing high quality care that the public can access safely and with confidence.

Learner Feedback

"Very **engaging** and good to see healthcare from an **alternative perspective**"

"I got to see and **understand a GP's perspective** on a range of complaints. Which gave me a **greater insight** into their triage process, working diagnosis and plan of care"

"**Interesting** to see some **referrals that I didn't expect** especially regarding AAAs"

"I found the placement really **interesting**, especially the range of **patient diversity**. It was **engaging** throughout and gave me a great insight into GP practice. Really **enjoyed** today and would advise to **include more types** like this in the future. Thank you."

"**Brilliant placement** as this has never previously been available. **Opportunity to discuss consultation in depth and ask questions.**"

Next Steps

Looking forward..

- Continue to identify forums to speak about our experiences
- Conduct primary research to grow the evidence base in this area
- Embed the recorded experiences into the curriculum and seek IPL opportunities
- Horizon scanning for further funding and collaborations which are sustainable

Any Questions?
