

Topping, Jane (2018) The influencing machine. [Show/Exhibition] In: The Influencing Machine, 1 December 2018 - 20 January 2019, nGbK, Berlin, Germany.

Downloaded from: <http://insight.cumbria.ac.uk/id/eprint/4291/>

Usage of any items from the University of Cumbria's institutional repository 'Insight' must conform to the following fair usage guidelines.

Any item and its associated metadata held in the University of Cumbria's institutional repository Insight (unless stated otherwise on the metadata record) may be copied, displayed or performed, and stored in line with the JISC fair dealing guidelines (available [here](#)) for educational and not-for-profit activities

provided that

- the authors, title and full bibliographic details of the item are cited clearly when any part of the work is referred to verbally or in the written form
 - a hyperlink/URL to the original Insight record of that item is included in any citations of the work
- the content is not changed in any way
- all files required for usage of the item are kept together with the main item file.

You may not

- sell any part of an item
- refer to any part of an item without citation
- amend any item or contextualise it in a way that will impugn the creator's reputation
- remove or alter the copyright statement on an item.

The full policy can be found [here](#).

Exhibition

The Influencing Machine

Saturday, 01 December 2018 — Sunday, 20 January 2019

Adress: nGbK, Oranienstraße 25, 10999 Berlin
Open: Daily 12:00-19:00, Wed-Fri 12:00-20:00
Language(s): › German
› English
Entry: free
Organized by: neue Gesellschaft für bildende Kunst

(The exhibition is closed on 24, 25, 26 and 31 Dec 2018 as well as on 1 Jan 2019)

Artists: Anna Bromley, Kajsa Dahlberg, Egemen Demirci, Fabien Giraud & Raphaël Siboni, Fokus Grupa, Eva & Franco Mattes, Mimi Onouha & Mother Cyborg, Sascha Pohflepp & Chris Woebken, Tactical Tech, Jane Topping, Sarah Tripp, Clement Valla, Laura Yuile

Bots (from robot and Czech robota, socage, forced labor) are inconspicuous computer programs that perform tasks automatically.

Bots manipulate the masses, turn fake news into facts, supersede human labour, colonise our objects and lead us into temptation: Based on digital code, bots perform thousands of minute routines which supplement and at times displace human agency and labour, thus shaping virtual and analog structures. They are often given human features—names, voices, bodies on occasion. Yet even when remaining invisible, they are increasingly becoming part of our everyday.

The Influencing Machine examines these diffusions and formations. Clustered around a series of famous bots, the exhibition assembles contemporary artistic positions examining the automation and datafication of our life worlds and work environments. Here, bots are understood as socio-technical phenomena; their efficacies requiring and provoking novel and manifold relations and imaginations:

How do bots and data form politics? In what ways do they transform political orderings of participation, accountability and knowledge? Why do racist or sexist logics reproduce and intensify on digital platforms, social networks, and data-driven expert systems? What does it mean for the value of labour and, more generally, human agency if transactions, communication, and decisions are increasingly carried out by fully automated devices? Which cultural imaginations shape the design and function of human-machine interfaces?

The exhibition provides insights into the socio-material ecologies of this new influencing machine and seeks to problematize the figure of the bot beyond the dominant narratives of society and technology.

nGbK project group: Vladimir Čajkovac, Kristina Kramer, Bettina Lehmann, Sophie Macpherson, Tahani Nadim, Neli Wagner

Supported by the Museum für Naturkunde Berlin, the Institute for European Ethnology, Humboldt-Universität zu Berlin and the Centre for Anthropological Research on Museums and Heritage(CARMAH) – especially Tahani Nadim, Juniorprofessor for Socio-cultural Anthropology and head of the Department Humanities of nature (MfN)
